* For the best user experience, please update your phone to the latest software version.
* Best photo mode is only available on smartphones with A12 Bionic chipset or later (iPhone XS or newer).

1. Switching the front & back camera while recording in 4K 24/25fps is available for all models listed above. While recording in 4K 24/25fps, it is available for iPhone XS and above. While recording in 1080p/720p, it is available for all phone models in the above list.
2. Face Filter is only available on smartphones with 3GB of RAM or more.
3. Due to performance and system compatibility, some resolutions and frame rates cannot support Active Zoom Tracking. Please refer to the guide within the Insta360 App for specific details.
4. Using DockKit tracking requires an Apple device compatible with DockKit, specifically an iPhone 12 or later model (includes iPhone SE 3rd generation and iPhone 14e) running iOS 17.4 higher. We recommend iOS 18 and above.
5. Phone Camera Control is only available on iPhone 15 Pro and iPhone 15 Pro Max with the latest iOS version.
6. Refers to the functionality to control the iPhone native camera features after pairing the Flow 2 Pro with Apple DockKit. We recommend iOS 18 and above.

Android
